

CARTA DI CROCIERA ENROUTE CHART

SPAZIO AEREO INFERIORE: al di sotto del FL 195 - LOWER AIRSPACE: below FL 195

MAGNETIC VARIATION 2005,
 Legend:
 — MAG VALUES
 — ANNUAL CHANGE

CHART LEGEND

	LOCATOR		NDB		TACAN		VOR		FIR Boundary
	VORTAC		DME		VOR/DME		VORTAC NDB		CTR Boundary
	Reporting point on request		Compulsory reporting point		Distance between points		Navigation Aid Identification		Temporary Segregated Areas
	VOR frequency		NDB or frequency		DME or TACAN Channel		Danger areas		Prohibited areas
	Upper vertical limit not indicated if FL 195 or above		Lower vertical limit not indicated if SFC				Restricted areas		

Warning:
 For more chart readability only areas with upper vertical limit higher than 4500 ft AMSL are depicted.
 For further details see: VFR Area chart, Visual Approach Chart and Instrument Approach Chart as needed.

CLASSIFICAZIONE DELLO SPAZIO AEREO	AIRSPACE CLASSIFICATION
Vedere AIP ENR 1.	See AIP ENR 1.
I confini nazionali disegnati sulla carta sono solo indicativi e non hanno significato politico.	National boundaries depicted on the chart are only indicative and have no political significance.
I seguenti dati aeronautici non sono stati deliberatamente riportati in quanto inseriti nelle corrispondenti Carte di Area: 1) Le coordinate geografiche delle radiostazioni e dei punti di riporto di posizione; 2) Le altitudini dei punti dove si trovano i DME.	The following aeronautical data are intentionally omitted since they are shown in the related Area Charts: 1) Radio navigation aid and reporting point geographical coordinates; 2) Elevation of DME sites.
